

## **SpongeBob Safety Scenarios – Station 1**

For each scenario, write down what lab rule(s) was broken on your answer sheet.

1. SpongeBob poured some of a liquid into a test tube and began to heat it. When it started to bubble, he looked into the test tube to see what was happening and pointed it towards Gary so he could see.
2. Gary didn't think the substance in the test tube smelled poisonous and tasted a little bit of the substance.
3. SpongeBob and Gary were worried about running out of time, so they left the test tube and materials on the table and moved to a different station to try another experiment.
4. Patrick didn't want to waste any time reading the directions, so he put on some safety goggles and picked a couple different substances.
5. SpongeBob noticed that he had a small cut on his finger but decided he didn't have time to tell the teacher about it.
